

Global Science & Technology Opens New Huntsville Office

Held Reception and Event on May 6

Global Science & Technology officially opened its Huntsville, Alabama office and kicked off an effort to further develop new business opportunities. The announcement came as part of a ribbon-cutting ceremony and reception at the Huntsville/Madison County Chamber of Commerce Building that took place on Tuesday, May 6.

“This is a proud moment for Global Science & Technology,” said Chieh-san Cheng, President of Global Science & Technology, Inc. “We are more than proud to be a member of the Huntsville community to support Team Redstone and the NASA Marshall Space Flight Center.”

Global Science & Technology’s Huntsville initiative is being lead by Ms. Joni Green, who is assisting the company with business development and outreach activities.

“I’m excited to represent Global Science & Technology here in Huntsville,” Joni said. “As its consultant, I plan to forge new business and community partnerships in order to support Team Redstone and NASA Marshall Space Flight Center’s missions.”

(L to R) John Chehansky, vice president of business development of GST; Chieh-san Cheng, president of GST; Loretta Spencer, Huntsville Mayor; Evans Quinlivan, chairman of the Chamber of Commerce of Huntsville/Madison County Board of Directors; and Joni Green, consulting partner for GST, prepare to cut the ribbon at the ceremony on May 6.

Joni is a certified Program Management Professional (PMP) with more than 17 years of leadership and management experience.

The new Global Science & Technology office in Huntsville is located at 600 Boulevard South.

With the new Huntsville office, Global Science & Technology now supports six offices and locations around the nation. The original five locations are: Greenbelt, MD; Fairmont, WV; Washington, DC; Ashville, NC; and Boulder, CO. ■

Global Science & Technology Hires NOAA and NASA Capture Manager

Global Science & Technology, Inc. hires Michael Walker, who accepted the position of Capture Manager responsible for NASA- and NOAA-related business.

“We are very fortunate to have a person with Michael’s credentials join the GST family,” said GST President Chieh-san Cheng. “He has been responsible for creating and implementing successful business development strategies and managing winning proposals continuously since 1991.”

Walker has a long and successful track record at many large and small businesses, and is no stranger to the international scientific and technology contracting community. He noted that he believes that, as a successful science and technology firm, GST is a perfect fit for him.

“I’m excited about this outstanding opportunity,” Walker explained. “Global Science & Technology is a world-class company that is well known in the Government contracting community and around the nation. ■
