Global Science & Technology Promotes John Dahlia to Director of Corporate Communications

Greenbelt, MD – Global Science & Technology, Inc. proudly announces that John Dahlia has been promoted to the newly created position of Director of Corporate Communications for the company.

“John’s hard work and dedication to Global Science & Technology has helped us introduce and promote our image around the nation,” said Global Science & Technology President Chieh-san Cheng. “He has shown great leadership in managing new and current communications initiatives. We are very excited that John will continue to support us in his new capacity.”

Dahlia, who has worked for Global Science & Technology as its director of public relations since 2006, came to the company when it merged with TMC Technologies, Inc. in 2005. At the time, he was TMC Technologies’ director of business development and communications.

“I’m excited to have this outstanding opportunity,” Dahlia explained. “As Global Science & Technology’s director of corporate communications, I will include legislative relations initiatives to the list of communications activities I already manage for our locations around the nation.”

Prior to coming to Global Science & Technology, Dahlia was news director for CBS Affiliate WDTV in Bridgeport, West Virginia for six years. There he helped lead the station’s news department, which won numerous Associate Press awards, including two for “Best News Operation.”

Dahlia also worked for two years as the director of Main Street Fairmont. As its director, he worked on numerous development, fundraising, and event planning projects.

Along with being the director of corporate communications for Global Science & Technology, Dahlia currently serves as an elected member of the City of Fairmont Council. Upon being elected to council, Dahlia was appointed the city’s deputy mayor.

He and his wife, Gina, reside in Fairmont, WV with their two children, Sabrina and Nicolas.

About Global Science & Technology, Inc.

Global Science & Technology, Inc. was founded in 1991. Currently, Global Science & Technology has offices in six locations: Greenbelt, Maryland; Washington, DC; Fairmont, West Virginia; Boulder, Colorado; Asheville, North Carolina; and Huntsville, Alabama. Global Science & Technology has built a highly specialized workforce that includes experts in key domains of engineering, science, communications, and information technology. Global Science & Technology provides all levels of scientific and technical expertise and support within the federal Research and Development (R&D) laboratory environment. Global Science & Technology's major clients include the National Aeronautics and Space Administration (NASA) Goddard Space Flight Center (GSFC), NASA Headquarters, National Oceanic and Atmospheric Administration (NOAA), Department of Defense (DoD), Department of Justice (DOJ), and the State of West Virginia. Much of Global Science & Technology's work has been in direct support of NASA and NOAA science missions and related data systems. Global Science & Technology's signature emphasis is on systems interoperability and solutions based on open standards to create efficiencies and reduce overall cost of operations.
